

Maxicrop[®]

PROFESSIONAL

MOSS KILLER & CONDITIONER

**A SOLUBLE CONCENTRATE CONTAINING
17.0% W/W IRON SULPHATE AND 2% NITROGEN.**

IMPORTANT INFORMATION

To avoid risks to human health and the environment, comply with the instructions for use FOR USE ONLY AS A PROFESSIONAL MOSS KILLER AND TURF TREATMENT

For use on turf. Maximum individual dose: 150ml product per 10 sq. metres.

Maximum No of application per year: 3.

Interval between applications: 40 days.

Latest time of application: Early Autumn

Following application there may be darkening or blackening of the turf. This is temporary and will disappear.

Do not allow spray to contact foliage of neighbouring vegetation.

READ THE LABEL BEFORE USE. USING THIS PRODUCT IN A MANNER THAT IS INCONSISTENT WITH THE LABEL MAY BE AN OFFENCE. FOLLOW THE CODE OF PRACTICE FOR USING PLANT PROTECTION PRODUCTS. MAPP 18514 PCS 05149

- This powerful iron based Moss Killer gives a rapid kill of moss and produces a dramatic improvement in turf colour. The added seaweed stimulates tough roots and strong stems to cover the thin weak areas left by dead moss.
- Sprayer Details and directions for use – See back label for details
- Sufficient to treat 666sq.m

10 Le

SAFETY PRECAUTIONS

Operator Protection

WASH HANDS AND EXPOSED SKIN AFTER USE.

Environmental Protection

DO NOT CONTAMINATE WATER with the product or its container. Do not clean application equipment near surface water.

Storage and disposal

- KEEP OUT OF REACH OF CHILDREN AND AWAY FROM PETS.
- KEEP IN ORIGINAL CONTAINER, tightly closed, in a safe place. Dispose of contents/container to a licensed hazardous waste disposal contractor or collection site except for empty triple rinsed containers which can be disposed of as non-hazardous waste.
- PROTECT FROM FROST and high temperatures (0-30°C).

DIRECTIONS FOR USE

IMPORTANT: This information is authorised as part of the Product Label. All instructions within the 'directions for use' sections must be read carefully in order to obtain safe and successful use of this product.

Shake before use. Apply 1.5 litres in minimum of 5 litres of water per 100 sq. metres (for details see application rate table opposite). Apply to actively growing turf in moist conditions from early spring to autumn. The grass should be cut three days before treatment and not cut again until at least four days after treatment. Do not apply if rain is imminent but water in if no rain has fallen within 48 hours. Avoid walking in treated areas until the product has dried. Two weeks after application scarify vigorously to remove dead moss. Do not apply during drought or freezing conditions. For persistent or heavy moss infestations a further application may be required at 40 day intervals, not to exceed maximum number of applications (3 per year).

RESTRICTIONS OR WARNINGS

Do not spray onto surfaces other than grass to avoid staining.

SPRAYER DETAILS AND APPLICATION RATES

- Suitable for use in all types of sprayer calibrated to apply sprays at a volume of 650 litres per hectare.
- Use low pressure fan jets to give a high volume coarse spray to penetrate the dense moss.
